From (Name) F. Armitage, Esquire,

(Designation) Inspector-General of Police.

To The Chief Secretary to the Government of Madras,

Judicial (Police) Department.

Sir,

I have the honour to request that Government will be pleased to grant permission to the Mangalore Municipality to erect on the police land in the Mangalore Town a building for an elementary school for police children.

The Chairman, Municipal Council, Mangalore, reports that the estimated cost of the building is about Rs.3400/- and that in the event of the school having to be closed down in the future, the Municipality will have to be compensated to the extent of the estimated cost of construction the school buildings less a reasonable amount for depreciation to be fixed by an officer of Government in the Public Works

partment. The number of police children at present is about
50 and the Deputy Inspector-General of Police states that there
s no likelihood of the school ever closing once it is started.

The Chairman wants about 70 cents of land as shown in the
ketch enclosed but the District Superintendent of Police
onsiders that such a large extent is unnecessary and that
smaller area 120' X 132' will do

Sketch (W) p-3 infra

The Deputy Inspector-General of Police and the District
agistrate agree with the proposal and I recommend that it may
e sanctioned.

The land in question can be spared; it is not likely to
e required by this department.

I have the honour to be,

Sir,

Your most obedient servant,

E. Rowlandson.

2. The District Educational Officer, South Kanara reports that the site proposed to be handed over by the Police Department is insanitary and unsuitable for school purposes and recommends that an acre of land on the site as indicated in the plan to the South of the mosque and the temple which also belongs to the Police Department and which is within a few yards from the site proposed, be alienated for the purpose. But the Police Department is not willing to make over the site proposed by the District Educational Officer (vide copies of the endorsements of the Superintendent of Police, South Kanara and the Deputy Inspector General of Police, Southern Circle, enclosed). The Municipal Health Officer objects on sanitary grounds to the site proposed to be handed over by the Police Department (vide copy of the report enclosed). There is thus a conflict of opinion between the Police Officers and the Health Officer and it is a matter for Government to decide between them.

3. If Government decide in favour of the Health Officer, the proposal will have to be abandoned and I suggest for consideration the desirability of acquiring and enlarging the building of the Attavar Municipal Elementary school which is reported to be wi..... - ..... from the site he construction of the new school and which may have to be closed when the new school is opened

Copy of endorsement R.O.C.No.1927/Genl. of 1925 dated 7th September 1925 of the Superintendent of Police, South Kanara.

I inspected the two sites in question. The site selected by Mr. Dawson is about 90 ft., away from the latrine referred to in the letter of the Ag. Director of Public Instruction, whereas the Police line huts are situated within 53 ft. of the latrine. This site was selected by Mr. Dawson in consultation with the Municipal authorities and no objection was raised by any of them that it was in any way insanitary. The Police men and their families do not find any inconvenience or feel anything insanitary on account of this latrine. I do not consider that the proposed site for the building of the school which is 90 ft. away will in any way be rendered insanitary by the latrine.

The site proposed by the District Educational Officer, South Kanara, cannot be utilised for the building of a school. It is in front of the Sergeants' quarters and a school in such close proximity to the quarters will be a perpetual source of nuisance to the families of the Sergeants and the Sub Inspectors. There is no backyard worth mentioning for the Sergeants' quarters and they have to use the front portion. The Sergeant and the Sub Inspectors reasonably object to the alienation of the site proposed by the District Educational Officer, South Kanara, for the construction of the school.

There is no other site save the one proposed by Mr. Dawson after due consideration available for the construction of the school. So the original proposal may be approved.

Copy of endorsement of the Deputy Inspector-General of Police, Southern Range, No.C.1086-Genl.of 25 dated 9-9-1925

Forwarded.

I have seen the site and agree with the District Superintendent of Police. The latrines are well kept and will not I think affect the school in any way.

The close proximity of the Police latrines to the proposed school building will have a very bad effect in course of time on the physical and mental development of the school children and as such I am of opinion that the site selected is not suitable for the purpose.

Copy of remarks of the District Health Officer, South Kanara No. N. Dis. C. No. 490/26, dated 1st June 1926 made during his inspection of the plot selected for the school.

Retransmitted to the Director of Public Health, Madras.

2. I inspected the plot selected for the school this evening along with the Superintendent of Police, South Kanara. The plot is about 100 feet away from the Police line latrines, and I agree with the District Medical Officer that it would be a suitable site for the school, under circumstances when no other plot is available. The school is mostly intended for the children of the police constables and some of the police huts are within 53 feet of the latrine. The latrine is also kept in a clean condition. Under these circumstances, I do not consider that the presence of the latrine can be urged as a serious objection against the selection of the site for the school. The latrine is a corrugated iron one and if in future, the school premises have to be enlarged, the latrine can be shifted from the present site, as suggested by the District Medical Officer.

Copy of report on the site of School to be built near Police Line, Mangalore, from the District Medical Officer, South Kanara, dated 12-4-1926, to the Superintendent of Police, South Kanara.

Inspected the plot selected for the School with the Superintendent of Police, South Kanara and the Chairman, Munici-

Municipality, Mangalore. The plot suggested is about 25 feet in width running along the road to the South of Police lines extending from Police quarters on one end to a Nullah at the other end. The School is to face the road. This plot is over 100 feet away from the line latrines and in my opinion would be a very suitable site for school, under circumstances when no other plot is available. If in future the school premises have to be enlarged, it is suggested the latrines which are portable can be easily removed further down, away from the school site.

Subject :- School for Police children, Mangalore — construction by municipality on Police land

(205 Rs.)

It would appear that though the proposed school is mainly intended for Police children it will be open for other children as well. It is for orders whether the I.G's recommendation which is agreed to both by the D.I.G. Western Range and the D.M. South Kanara will be accepted.

2: The I.G. says that the land can be spared and that it is not likely to be required by Police Deptt. It would under the circumstances seem best to transfer the land in question to the Revenue Deptt. for alienation to the municipality, subject to the usual conditions. If this course is approved the file may, it is submitted, be transferred to Revenue for further action through Law (Ldv.) and L.S.G Depts.

After discussing the matter with the Chairman of the Mangalore Municipality, the Superintendent of Police, South Kanara, reports that the existing Municipal school in the vicinity is likely to be closed on account of inadequate accommodation and ... frequent trouble given by the landlord of the building. If this school is closed, the Police children will experience considerable difficulty as then there will be no school close by. It was only on these considerations and in consultation with the Chairman, that proposals were submitted to Government for

constructing

constructing a school on the police land.

If a school is built on the land in question, the existing school referred to by the Director of Public Instruction will be abolished.

The file relates to the construction by the Mangalore municipality on the Police land in the Mangalore Town a building for an elementary school for police children. The Municipal Health officer objects on sanitary grounds to the site proposed to be handed over by the Police for the purpose. The District Educational officer therefore recommends that another site which also belongs to the Police deptt and which is within a few yards from the site proposed may be alienated for the purpose. The Police deptt. are however not willing to make over the

6 pscr

site proposed by the District Education Officer. The D.S.P. South Kanara and the D.I.G. southern Range do not also consider that the site originally proposed for the building of the school is in any way insanitary. It is now to be decided whether the Govt. will agree with the Health officer or with the Police officers.

2. It is reported that if a new school is built, the existing municipal elementary school in the vicinity will be closed. Instead of building a new school, it would seem therefore best to acquire and enlarge the existing schools as suggested by the D.P.I. The remarks of C.I.G. and C.A.V. (Edu) may perhaps be invited on this. For orders.

ARN
19.1.26.

It seems a little difficult to support Police opinion on sanitary matters against the Health Officer. On the other hand as most of the children homes are 53 ft from a latrine their physical & mental development would perhaps not really be adversely affected by going to a school 90 ft from the same latrine

However the acquisition & enlargement of the existing Municipal School - Rupees 3 ft

of this school - which is going to supersede the Police School - is only problematical.

U.O. Note No. 1551-I dated. 25-5-27

Buildings - Mangalore - School for police children - Construction by Municipality ~~on Police land~~ - correspondence ending with his letter Rc.No.147 H&B/26 d. 15-6-26.

transfer a piece of land 120'x132' in T.S.No.280/1 A 1 in Mangalore Town to the Mangalore Municipal Council for the construction of a school mainly for the children of police officials. The site ~~by him~~ proposed for the was approved by the D.H.O. and D.M.O.. The Board of Revenue, ~~which was~~ consulted as to -- whether there was any objection to the alienation of the above site, ~~has~~ recommended the alienation of a different site in S.No.208/1c. The reason for the change ~~of site~~ is that the old site ~~is in the Municipal Chairman's opinion~~ which the Municipal Chairman considers hardly sufficient for the proposed school. The site recommended by the Board of Revenue is near the Travellers' Bungalow and is about a furlong ~~distant~~ from the Police lines. The school which ~~xxxx~~ it is proposed to build on the new site is intended for the children of Police constables and also for others. The I.G may be requested u.o. to state -- whether he has ~~any~~ any objection to the new site referred to above being selected for the School.
